	c)	<p>Any restrictions, or other major impediments on transfer of funds or regulatory capital within the group.</p> <p>Not applicable</p>
Quantitative Disclosure	d)	<p>The aggregate amount of surplus capital of insurance subsidiaries (whether deducted or subjected to an alternative method) included in the capital of the consolidated group</p> <p>Not applicable</p>

2. CAPITAL STRUCTURE

Qualitative Disclosure	a)	<p>Summary information on the terms and conditions of the main features of all capital instruments, especially in the case of capital instruments eligible for inclusion in CET1, Additional Tier 1 or Tier 2.</p>	<p>As per Guidelines on Risk Based Capital Adequacy in line with Basel III Common Equity Tier – 1 (CET1) Capital of National Bank consists of (i) Paid-up Capital (ii) Statutory Reserve (iii) General Reserve (iv) Retained Earnings and (v) Minority interest in Subsidiaries.</p> <p>National Bank and its subsidiaries do not have Additional Tier 1 (AT1) Capital as they did not issue any instrument that meets the qualifying criteria for Additional Tier1 Capital.</p> <p>Tier - 2 Capital consists of (i) General Provision (ii) Subordinated Debt/instruments that meet the qualifying criteria for Tier 2 Capital</p>
-------------------------------	----	--	--

Quantitative Disclosure	b)	The amount of Regulatory capital with separate disclosure of:	Solo	Consolidated
			Taka in Crore	
		Common Equity Tier 1 (CET1) Capital:		
		Fully paid up capital	3,219.74	3,219.74
		Non repayable share premium account	-	-
		Statutory reserve	1,722.81	1,722.81
		General reserve	-	5.65
		Retained earnings	(4,665.06)	(4,622.85)
		Minority interest in subsidiaries	-	0.02
		Dividend equalization account	-	-
		Additional Tier 1 (AT1) Capital	-	-
		Total Tier 1 Capital	277.49	325.37
		Tier 2 Capital	203.66	203.66
		Total Amount of Tier 1 and Tier 2 Capital	481.15	529.03
	c)	Regulatory Adjustments/ Deductions from Capital	98.05	109.86
	d)	Total Eligible Capital	383.10	419.17

3. CAPITAL ADEQUACY

Qualitative Disclosure	a)	A summary discussion of the bank's approach to assessing the adequacy of its capital to support current and future activities.	National Bank has a body called Risk Management Division (RMD) for assessing overall risk profile and a strategy for maintaining adequate capital. Adequate capital means enough capital to compensate all the risks in the business, and to develop and practice better risk management techniques for monitoring and managing the risks. The Bank has adopted Standardized Approach (SA) for computation of capital charge for credit risk and market risk, Basic Indicator Approach (BIA) for operational risk. As per capital adequacy guideline, the bank is required to maintain Capital to Risk Weighted Assets Ratio (CRAR) of 12.50% including Capital Conservation Buffer of 2.50% with regards to credit risk, market risk and operational risk.
-------------------------------	----	--	---

Quantitative Disclosure		Particulars	Solo	Consolidated
			Taka in Crore	
	b)	Risk Weighted Asset (RWA) for Credit Risk	57,838.47	57,734.07
	c)	Risk Weighted Asset (RWA) for Market Risk	1,385.31	1,511.52
	d)	Risk Weighted Asset (RWA) for Operational Risk	51.82	139.11
		Total Risk Weighted Assets (RWA)	59,275.61	59,384.70
		Total Regulatory Capital (Tier 1 & Tier 2)	383.10	419.17
	e)	Capital to Risk Weighted Assets Ratio (CRAR)	0.65%	0.71%
		Common Equity Tier 1(CET 1) Capital to RWA Ratio	0.30%	0.36%
		Tier 1 Capital to RWA Ratio	0.30%	0.36%
		Tier 2 Capital to RWA Ratio	0.35%	0.35%
		Minimum Capital Requirement (MCR)	5,927.56	5,938.47
	f)	Capital Conservation Buffer	0%	0%

- i) As per Bangladesh Bank letter no. DBI-5(IS)/152/2025-598 dated April 24, 2025 required provision against loans and advances including off balance sheet items is BDT. 22,549.12 crore against Bank maintained an amount of BDT. 1,932.30 crore, provision required against other classified assets and investment is BDT.302.69 crore against which Bank maintained an amount of BDT.276.86 crore and required provision against gratuity is BDT 280.06 crore against which Bank maintained an amount of BDT 221.42 crore. Bangladesh Bank vide letter no. DOS(CAMS)1157/41(dividend)/2025-3104 dated May 21, 2025 provide NOC for finalization of audited financial statements-2024 without adjustment of deficit provision of BDT 20,701.28 crore as bank could not earned sufficient profit during the year.
- ii) Bangladesh Bank vide letter no. BRPD(BS)661/14B(P)/2025-5408 dated April 30, 2025 allowed deferral of Deferred Tax Assets amounting to BDT.2,008.36 crore which will be adjusted / deduction from Tier -1 capital @ 20%, 40% , 60% , 80% & 100% for the year ended 31 December 2025, 2026 , 2027, 2028 & 2029 respectively.
- iii) Bangladesh Bank vide letter no. DOS(CAMS)1157/01(II)-A/2023-44 dated January 03, 2023 allowed deferral to National Bank from deduction of Intangible Assets amounting to BDT.2,346.37 crore created against the interest waiver which will be adjusted with retained earnings within a period of next 8 years equally.

	Closing balance	1,728.64

5. Equities: Disclosures for Banking Book Positions

Qualitative Disclosure	a)	The general qualitative disclosure requirement with respect to equity risk, including:	
		i) Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons	Investment in equity securities are broadly categorized in to two parts: i) Quoted securities: Ordinary Shares, Mutual Fund that are traded in the secondary market (Trading Book Assets). ii) Unquoted securities: Preference Share and Subscription for Private Placement that are not traded in the secondary market (Banking Book Assets)

	Investment Class	Initial recognition	Measurement after initial recognition	Recording of changes
	Shares (Quoted)	Cost	Book value of overall portfolio	Loss (net of gain) to Profit & Loss account but no unrealized gain/ (loss) booking. Provision is being maintained for unrealized loss.
	Shares (Unquoted)	Cost	Book Value	Loss to Profit & Loss account but no unrealized gain (loss) booking.
	Mutual fund (Closed end)	Cost	Book Value	Loss (net) to Profit & Loss account but no unrealized gain / (loss) booking. Provision is being maintained for unrealized loss.

Quantitative Disclosure		Particulars	Solo		Consolidated	
			Taka in Crore			
			Cost Price	Market Price	Cost Price	Market Price
b)		Value disclose in the balance sheet of investments, as well as the fair value of those investments, for quoted securities, a comparison to publicly quoted share values where the share price is materially different from fair value	732.80	515.72	870.92	578.83
c)		Capital requirements broken down by appropriate equity groupings, consistent with the bank's methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisory provisions regarding regulatory capital requirements.				
		i) Specific Risk	51.57		57.88	
		ii) General Market Risk	51.57		57.88	

6. INTEREST RATE RISK IN THE BANKING BOOK (IRRBB)

Qualitative Disclosure	a)	The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of IRRBB measurement.	<p>Interest rate risk is the risk where changes in market rates might adversely affect a bank's financial condition. Changes in interest rates affect both the current earnings as well as the net worth of the bank. To evaluate the impact of the interest rate risk on the net interest margin, National Bank monitors the size of the gap between rate sensitive assets and rate sensitive liabilities in terms of the remaining period to re-pricing.</p> <p>A maturity mismatch approach is used to measure Bank's exposure to interest rate risk.</p> <p>Interest Rate Risk in the Banking Book arises when there is a mismatch between the maturity profiles of Rate Sensitive Assets (RSA) and Rate Sensitive Liabilities (RSL). Interest rate risk has short term impact on Bank's net interest income and long term impact on Bank's net worth since the economic value of Bank's assets, liabilities and off-balance sheet exposures is affected.</p>				
(BDT in Crore)							
Quantitative Disclosure	b)	The increase (Decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring IRRBB, broken down by currency (as relevant)	Particulars	1-30 days	Over 1 month to 3 months	Over 3 months to 1 year	Above 1 year
			Rate Sensitive Assets	11,357.37	528.05	2,394.97	35,810.49
			Rate Sensitive Liabilities	15,258.67	9,282.99	8,742.83	16,412.58
			GAP	(3,901.30)	(8,754.94)	(6,347.86)	19,397.91
			Cumulative GAP	(3,901.30)	(12,656.24)	(19,004.10)	393.81
			Adjusted Interest Rate Changes (IRC) for 1% increase	0.08%	0.17%	0.75%	1.00%
			Quantity interest impact (Gap x IRC)	(3.25)	(14.59)	(47.61)	193.98
			Accumulative interest impact (GAP x CIRC)	(3.25)	(17.84)	(65.45)	128.53

7. MARKET RISK

Qualitative Disclosure	a)	i) Views of BOD on trading/ investment activities	Market risk may be defined as the possibility of losses of assets arising out from the volatility in the market variables i.e. rate of interest, prices of securities and foreign exchange rate.
		ii) Methods used to measure market risk	The Bank applies maturity method in measuring interest rate risk for securities in trading book. As per Bangladesh Bank suggestion the capital charge for market risk exposure is computed under standardized approach using the maturity method.
		iii) Market risk management system	Treasury Division manages the market risk and ALCO regularly monitors the activities of Treasury Division in managing such risk. The Bank has adopted the limit by central bank to monitor foreign exchange open positions. Foreign exchange risk is computed on the sum of net short positions or net long positions, whichever is higher of the foreign currency positions held by the Bank.
		iv) Policies and processes for mitigating market risk	The Bank has formed Asset Liability Management Committee (ALCO) who monitors the activities of Treasury Division to minimize the market risk.

		<p>i) Foreign Exchange risk is the risk that Bank may suffer losses as a result of adverse exchange rate movement during a period. To evaluate the extent of foreign exchange risk, a liquidity Gap report is prepared for each currency.</p> <p>ii) Equity risk is defined as losses due to changes in market price of the equity held. To manage equity risk, the Investment Committee of the Bank ensures taking prudent investment decisions as per investment policy of the bank and capital market exposure limit set by Central Bank.</p>
--	--	--

Quantitative Disclosure	b)	The capital requirements for :	Solo	Consolidated
			Taka in Crore	
		i) Interest rate risk	5.77	5.77
		ii) Equity risk	103.14	115.76
		iii) Foreign exchange risk	29.62	29.62
		iv) Commodity risk	-	-
		Total capital requirement	138.53	151.15

8. OPERATIONAL RISK

Qualitative Disclosure	a)	Views of BOD on system to reduce Operational Risk	Operational risk is the risk of losses arising from human error, inadequate or failure of internal process and technical system, fraud or any other adverse external event. The Bank seeks to minimize exposure to operational risks subject to cost benefit trade offs. The Bank captures some pre identified risk events associated with all functional departments of the bank through standard reporting format.
		Performance gap of executives and staff	<p>National Bank has recognized the importance of having right person at right place to achieve the organizational goals. The performance management process aims to clarify what is expected from employees as well as how it is to be achieved.</p> <p>The Bank puts special focus on learning and continuous development of individual's skill level by removing the weakness to perform the assigned job efficiently. The Bank arranges wide range of internal & external training programs to enhance capabilities as well as minimize performance gap that will contribute more to the organization.</p>
		Potential external events	There are certain risk factors which are external in nature and can affect the business of the Bank such as Macro – economic conditions, regulatory changes, change in demand, whereas few factors affect operations of the business directly or indirectly such as political instability,
		Policies and processes for mitigating operational risk	<p>Operational risk is the risk of losses arising from human error, inadequate or failure of internal process and technical system, fraud or any other adverse external event.</p> <p>The Bank has adopted policies which deal with managing different operational risks. Risk Management Division (RMD) of the Bank is primarily responsible to drive and look after the overall risk management function including operational risk</p>

		management. The Internal Control and Compliance Division of the Bank, the inspection teams of Bangladesh bank and External Auditors conduct inspection on different branches and divisions at Head Office of the Bank and submit reports presenting the findings of the inspections. Necessary control measures and corrective actions have been taken on the suggestions or observations made in these reports.
	Approach for calculating capital charge for operational risk	The Bank has adopted “Basic Indicator Approach” for calculating capital charge for operational risk as per Bangladesh Bank Guidelines. Under this approach, banks have to calculate average annual gross income (GI) of last three years and multiply the result by 15% to determine required capital charge. Gross income is defined as “Net Interest Income” plus “Net Non Interest Income” of a year.

Quantitative Disclosure	b)	Particulars	Solo	Consolidated
			Taka in Crore	
		The Capital requirements for operational risk	5.18	13.91

9. Liquidity Ratio:

Qualitative Disclosure	a)	Views of BOD on system to reduce Liquidity Risk	Liquidity risk is considered as the core risk factor in banking operation. Our Board of Directors (BOD) has a conscious eye on the liquidity condition of the bank. To reduce liquidity risk BOD has specified the maximum level of some liquidity ratios as per Bangladesh Bank guideline such as Advance Deposit Ratio, Maximum cumulative Outflow (MCO), Liquidity Coverage Ratio (LCR) & Net Stable Funding Ratio (NSFR). To mitigate liquidity risk BOD has approved total commitment limit. BOD has also approved a Liquidity Contingency Plan (LCP) to meet the fund requirements in liquidity crisis situation. To monitor the liquidity risk & manage it properly, Treasury Division prepares a liquidity position sheet on daily basis for onward submission to the Honorable Managing Director & CEO.
		Methods used to measure Liquidity risk	National Bank measures liquidity risk by calculating some key ratios of liquidity measure. The ratios we use to measure liquidity risk are- Advance Deposit Ratio (ADR); Liquidity Coverage Ratio (LCR); Net Stable Funding Ratio (NSFR); Structural Liquidity Profile (SLP); Maximum Cumulative Outflow (MCO) & unused commitment.

	Liquidity Risk measurement system	National Bank is addressing its liquidity risk mainly through ALCO meeting. Different aspects of both Micro & Macro environment, which are articulated in ALCO paper, regarding liquidity risk have analyzed in ALCO meeting. Based on the discussion & analysis, corrective decision & proactive measures have taken to manage liquidity risk. Additionally, bank has a BOD approved Contingency Management Team (CMT) headed by the Managing Director & CEO. This team is responsible to assess the level of crisis & steps to be taken to overcome the crisis.
	Policies and processes for mitigating liquidity risk	To manage liquidity risk, Bank closely monitors the correlation between the growth of loan & advance with the growth of deposit. To mitigate liquidity risk Bank manages its assets & liabilities in such a way that maturity of assets & liabilities should go in same direction. To manage liquidity the Bank is firstly using its own assets and eyeing for deposit mobilization. Afterwards, Bank considers next options like- borrowing from money market, Foreign Currency SWAP, sale of securities etc. We have a BOD approved Contingency Funding Plan (LFP) which addresses alternative funding if initial projections of funding sources and uses are incorrect or if a liquidity crisis arises. This contingency plan helps to ensure that the Bank can prudently and efficiently manage routine & extra ordinary fluctuations in liquidity.

Quantitative Disclosure	b)	Liquidity Coverage Ratio	48.57%
		Net Stable Funding Ratio (NSFR)	69.72%
		Stock of High Quality Liquid Assets	6,950.17
		Total net cash outflows over the next 30 calendar days	14,307.40
		Available amount of stable funding	29,152.76
		Required amount of stable funding	41,811.70

10. Leverage Ratio:

Qualitative Disclosure	a)	Views of BOD on system to reduce excessive leverage, Policies and processes for managing excessive on and off-balance sheet leverage	<p>Leverage ratio is the ratio of tier 1 capital to total on and off-balance sheet exposures. In order to avoid building-up excessive on and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The leverage ratio is intended to achieve the following objectives:</p> <ul style="list-style-type: none"> i) Constrain the build-up of leverage in the banking sector which can damage the broader financial system and the economy; ii) Reinforce the risk based requirements with an easy to understand and a non risk based measure.
-------------------------------	----	--	---

	Approach for calculating exposure	A minimum tier -1 leverage ratio of 3.50% has been prescribed by Bangladesh Bank to maintain by the Banks both at solo and consolidated level. National Bank maintains leverage ratio quarterly basis
--	-----------------------------------	---

Quantitative Disclosure	b)	Sl.	Particulars	Solo	Consolidated
				Taka in Crore	
		A	Tier-1 Capital	179.44	215.51
		B	On- Balance Sheet Exposure	55,569.17	55,746.67
		C	Off- Balance Sheet Exposure	1,466.99	1,466.99
		D	Total deduction from On and Off Balance Sheet Exposure	98.05	109.86
		E	Total Exposure (B+C-D)	56,938.11	57,103.80
		F	Leverage Ratio (A/E)*100	0.32%	0.38%

11. Remuneration:

Qualitative Disclosure	a)	Information relating to the bodies that oversee remuneration	<p>The Human Resources Division of the Bank oversees the remuneration in line with its HR policy under direct guidance of the Board of Directors of the Bank.</p> <p>A committee comprising of few members of Senior Management led by the Managing Director & CEO is responsible for formulating remuneration policy. The Head of Human Resources Division acts as the Member Secretary of the committee.</p> <p>The remuneration committee is the main body for overseeing the Bank's remuneration. The committee reviews the position of remuneration and recommend to the Board of Directors for approval considering the present cost of living, rate of inflation and existing remuneration of peer banks.</p> <p>The Bank does not have any external consultant in preparing and implementing the remuneration policy.</p> <p>The Bank follows a non discriminatory policy in respect of remuneration and benefits for Head quarter and regions. However, a foreign posting allowance in remuneration is in practice for employees who are posted outside Bangladesh.</p>
	b)	Information relating to the design and structure of remuneration processes	<p>The objective of the remuneration policy is to attract and retain productive employees who can contribute substantially to the overall growth of the Bank. The remuneration policy is carefully designed and regularly updated to provide adequate incentives so that the employees are fully committed to do their best to achieve the operational goals of the Bank.</p> <p>The committee reviewed the Bank's</p>

			<p>remuneration policy in the year 2022. The Board approved upward revision of salary structure of the employees of the Bank as an incentive for posting better result. Changes were also made in annual increment structure in pay scales, certain allowances etc. to bring about more uniformity in the remuneration package.</p> <p>The risk and compliance related employees are carrying out the activities independently in line with delegation of powers and job descriptions approved by appropriate authorities.</p>
	c)	Description of the ways in which current and future risks are taken into account in the remuneration processes:	<p>When implementing remuneration measures, the Bank considers business risk, financial and liquidity risk, compliance and reputation risk for each official.</p> <p>Various types of measures are taken into account in determining these risks. The measures focus on the organizational goals set for operational areas. Asset quality (NPL ratio), cost-income ratio, net profit growth etc. are used for measuring the risks.</p> <p>The performance of each employee is evaluated for a particular period especially annually against performance indicators set and agreed with the officials at the beginning of the year.</p>
	d)	Description of the ways in which the bank seeks to link performance during a performance measurement period with levels of remuneration.	<p>The Bank has set certain Key Performance Indicators (KPI), based on the job order of individual official and operational area.</p> <p>Decision about promotion, granting of annual increment and incentive bonus are linked to the performance of the employees against set key performance indicators.</p>
	e)	Description of the ways in which the bank seek to adjust remuneration to take account of longer –term performance	<p>The Bank does not seek to adjust remuneration to take account of longer –term performance</p>
	f)	Description of the different forms of variable remuneration that the bank utilizes and the rationale for using these different forms:	<p>The Bank pays variable remuneration such as, hardship allowance for Card Division and charge allowance for Divisional Head and Head of Branches. Those allowances are paid taking into account the special and technical nature of the job they perform.</p>
